

*Parkgate is on the Wirral Peninsula of Cheshire, a small village road that looks over North Wales, separated by the salt marshes of The River Dee. My grandparents Jimmy and Jill moved here in their early 20s and started their lives together here. When I was a young boy I used to visit Parkgate and remember the place very fondly. St. Thomas's being one of these places, a church my grandparents saved from destruction, renovated and built a community around.*

*After ten years, I revisited this memory for the first time. I went back to explore the community they had touched and the legacy Jimmy and Jill both left behind.*
